About Us

.Virtuous Women in Christ International is a faith-based charitable organization with the purposes of reducing poverty level of disadvantaged women, children and families, while creating and sustaining solutions, spaces and opportunities where women and children can thrive and achieve full potential as we provide healthy food, healthcare, medical assistance, education, economic and leadership skills to build healthier communities in Christ Jesus. To strengthen the healthcare system , reduce inequities, improve nutrition, education, economic and the health outcomes for the women, children, and families in communities that face the greater disparities As such, all our activities are charitable in nature working toward that goal.

The virtuous Women in Christ International works in California, USA and mostly in developing countries as Cameroon, Africa. Responding to the country's strategic needs, the first interventions aimed to reduce infant and maternal Mortality, fight against neglected tropical diseases, malaria, HIV prevention, care and treatment and increase food security as we encourage education and economic. Building also people capacities, leadership and confidence, empowering women as the key change agents. Since then, projects have strengthened local capacity in healthcare and Nutrition in response to emergencies, including the Anglophone crisis in the North-West of Cameroon. Working with local partners, VWCI is providing direct services and addressing the structural barriers affecting the most vulnerable populations.
In FY2022, VWCI directly reached over 15, 465 people with life-changing services.

We are a 501 (c)3 Nonprofit EIN: 84-204 1600

From Our President

Bertrand & Elvine Kengni

In the past 5 years, we have been awed and humbled to watch the Lord work miracles through Virtuous Women in Christ International. Many thousands of poor and vulnerable people have been blessed with material aid, healthcare, education, nutrition, economic and spiritual hope during that time, and we rejoice in every case because each transformed life is an incredible testimony to the power of the Gospel!

From the very beginning, you have played a critical role in this success story! Every accomplishment along the way was made possible through your contributions and those of other generous partners. This faithful support gave us the ability to reach deeply impoverished regions of the world more particularly in Cameroon, Africa. It equipped medical outreaches, reduce infant and maternal mortality, fight against tropical diseases, Malaria, food insecurity, reducing poverty and more. It allowed us to manifest Christ's love to the needy and bring hope to those who needed it most.

When those underserved communities needed help to feed hungry children, women and poor families, and send them to school, you were there. When emergencies anglophone crisis happened in the Northwest of Cameroon many where left without houses, many became orphans, widows and displaced without basic necessities of life, you rose to the challenge. You gave to urgent needs, and you saved lives. In the end, you became much more than a benefactor to a cause. You joined the Virtuous Women in Christ International family, sharing our heart and mission to achieve incredible things.

Those past years have been a truly challenging with many crises converging at once but we have been there throughout keeping hope alive. Our summary report tells the story of what our Virtuous family has accomplished for the poor and particularly in Cameroon in Jesus' name. This story is about something much more profound. It expresses how we live out our core Christian values and how we have worked together to expand God's kingdom. Our values, which can be summarized as "obey God and love others, as we reach out to the needy," have inspired us to pursue programs that honor the poor, empower the sick, comfort the suffering and lift up the hopeless. This kingdom work is not always easy, but it is always rewarding, so long as we keep our eyes focused on Christ.

My sincerest thanks go out to all who have been a part of our Christ-centered mission to the poor during these 5 exciting years in Cameroon as we count more than 10, 510 direct lives touched in many communities of 3 provinces of Cameroon, 4 private and public hospitals equipped with medical materials and supplies, engaging local churches, academic institutions, building people capacities, leadership and much more! Thank you for standing with us to keep the candle of God's love burning among those who desperately yearn for hope; and thank you for continuing to lift up our work with your prayers and support. By this partnership, you have lift up many souls and stretch out your hands to those who will otherwise suffer. Pro 31: 20

God bless you!

Sincerely,

Elvine Kengni

OUR PROGRAMS & IMPACT

HEALTH - Orphans, widows, displaced and Adolescent girls and young women, orphans and vulnerable Children, Pregnant and breastfeeding mothers &; **Fight against neglected tropical diseases, Malaria, HIV prevention, care and treatment, increase food security and education.**

VWCI is strengthening the capacity of local hospitals, communities, families, and care providers to improve care and support services for orphans, widows and vulnerable children and women across Cameroon and beyond. Our programs, supported by other nonprofit organizations reached 15, 465 participants in FY22 through our medical outreach, heath campaign, maternal and life saving intervention to saves lives. Our program also supports government and local systems and improve capacities at the community and household levels with also donation of medicines, medical supplies and equipment's to local hospitals; include referral and accompaniment to HIV testing, nutritional support, parenting education, and scholarships to vulnerable children and more.

Your generosity brought health and healing to those who would otherwise be left without care. You provided health programs, free health campaigns, medicines, medical supplies and equipment that are typically unavailable in impoverished communities. And you ensure that the sick, the injured or ***HIV patients and pregnant mothers were able to be diagnosed and treated. In FY 2022, 5210 free consultation and medicines provided, 5210 malaria users reached with malaria testing and treatment, 5210 reached HIV and TB testing, 215 maternal case supported and more (prenatal care, PMTCT, EID).***

HIV Care Program: To save lives, prevent HIV infections, and accelerate progress toward achieving HIV/AIDS epidemic control. **Treat All to attain 90-90-90 targets**

With our compassionate and experienced team of medical professional we provide early intervention services, core medical services as we also help diagnose, treat and prevent infections, provide patients with the counseling and support they need to manage their own treatment. Not limited to referral and accompaniment to HIV testing, and nutritional support. We will also focus on training community volunteers to screen for and treat HIV and TB, particularly where people often don't have access to health services such as in rural areas and underserved communities. ***FY2022 , 5210 users reached HIV and TB testing service, 1500 cervical cancer screening. 500 found affected with HIV who are in treatment.***

HIV Care Program patient enrollment has increase by 25% and we will continue to set a gold standard for health outcomes like viral suppression rates, low mortality and increase patient retention.

An AIDS- Free Population. We work to prevent HIV infection among women, while promoting counseling, testing and prevention of mother-to-child transmission (PMTCT, EID). We promote option B+, the provision of lifelong antiretroviral therapy to all pregnant and breastfeeding women living with HIV in underserved and rural areas of Cameroon. Priority given to women, adolescent girls and young women, orphan and vulnerable children.

OUR PROGRAMS & IMPACT

Nutritious and fortified food for Nutrition program

Before Children can truly strive, first need the basic necessities of life like nutritious food and medical care. Once those need are met, they can move from surviving to thriving through education , counseling and spiritual empowerment. Our Nutrition, and Empowerment program addresses women and children immediate needs while also offering spiritual, academic and emotional support.

Fighting famine and malnutrition's are our priority.

In fact, women and girls who are not healthy and well-nourished are more likely to have malnourished children. Because poor nutrition comprises the immune systems. So, children who are malnourished are more vulnerable to life threatening infectious diseases as well as physical and cognitive impairments. Because many children go to school on empty stomachs, this limits also their ability to learn in school and reduces their productivity as adults.

Your faithful support has rescued children and women from the threat of severe malnutrition and helped them grow healthy and strong.

In Cameroon, Africa: EMERGENCY RESPONSE & Nutrition Program

Since 2016, long- political and social instability in Cameroon ;Anglophone North West and Sud West has led to the emergence of a separatist movement, escalating into armed conflict in late 2017. To respond to the two most urgent needs of the affected population and beyond, VWCI has worked with local churches and communities since 2019 to provide emergency food and non-food items to vulnerable displaced and local families to fight against famine and malnutrition. ***FY2022 , 4565 groceries provided. In the following year of the project, VWCI will support at least 3,000 households (around 18, 000 individuals)*** The NHE Program Phase II plans **to reach 18,000 individuals year 2023** with activities that improve access to basic infrastructure and services, equip households with tools and skills to set up or improve livelihoods. Engaging as a technical, strategic, and advocacy partner with local churches, local government organizations, institutions, funders and more to bring, Nutrition, Health and empowerment within reach to everyone.

FY 2022 , 80 % of users report improvement in nutrition and health outcomes.

Faith Development

Living out our Christian faith and calling with boldness, joy and humility. VWCI partners with families , faith leaders and communities to ensure women and children thrive emotionally , physically and spiritually. Our faith based approaches are designed to address the physical as well as the spiritual root causes of women and children vulnerability. In FY22 we worked with 4565 parents and faith leaders to build more supportive and flourishing families and communities where people can thrive and maximize their God given potential.

Education & Economic Program

Although educational opportunities are offered by the government in many developing countries, the quality of those services is often substandard, and the education is not free because the school still charges some fees which are too high for poor parents and widows to pay. Many schools may also require students to purchase supplies and uniforms that many families cannot afford. As a result of those costs, dropout rates are enormous. To revise this trend, our program support many with tuitions fees, school supplies and more for many poor children and orphans in Cameroon, Africa.

Through your support, many children were able to go to school. Your investment will reap great rewards as these boys and girls work their way out of poverty and grow into responsible compassionate men and women of God.

FY2022, 2000 children received school supplies and 100 received tuition fees and educational awards to continue their education.

Boosting Microenterprise in Cameroon: *Studies show that when women are supported and empowered, all the society benefits. Their families are healthier, more children go to school , agriculture productivity improves and incomes increases. In short, communities become more resilient. We believe that empowering women to be key change agents is an essential element to achieving our Programs. We train women and youths, equipping them with the skills, methods and knowledge needed to take self-reliant actions to improve their lives and support their family. We provide small job training and skills in sewing, tailoring, husbandry, artisanal and more as part of our economic program.*

Deddy, a single mother of 4 kids was trained and supported to open her own artisanal shop as she creates with Africans beads hats, bags, shoes, necklaces, hair caps etc... and sell them to feed her family.

OUR STRATEGIES

LEADERSHIP

1

Leading targeted outreach, advocacy, and awareness efforts to share the opportunity and large scale social impact with key public and private sectors leaders and decision makers. Also fostering innovation and continuing training our team for reinforcement of relevant knowledge, roles and skills.

OUTREACH

Engaging as a technical, strategic, and advocacy partner with local hospitals, local churches, local governmental organizations, pharmaceutical companies, academic institutions , funders and more to bring Nutrition, health and education within reach to everyone.

2

MOBILIZE COMMUNITY

3

Building people capacities, leadership and confidence, empowering women as the key change agents. We train women and youths, equipping them with the skills, methods and knowledge needed to take self reliant actions to improve their lives. We provide small job training and skills training in sewing and tailoring, husbandry, literacy, hygiene, nutrition and more.

ANALYSIS

Monitoring and evaluating our impact and contributing learning and best practice to the broader of our Programs. Our model enables us to act effectively with a proven ability to leverage efficiency, to scale impact of healthcare, nutrition, education and empowerment and reach our goals.

4

EVALUATION

5

With the help of our partners, we develop, adapt, and scale up solutions to accelerate progress toward Health equity, Nutrition, Drugs and healthy behaviors. We monitor and evaluate our work to measure its impact. Understand which intervention are effective, and track change over time as we transform knowledge into future success and greater impact.

Many of us can't imagine a world where basic medical care and nutrition is out of reach - where a simple case of malaria , a deep cut or a nutritional defficiency can be a death sentence. But for many developing countries like Cameroon, these risks and challenges are a way of life. Nutritious food, antibiotics, antimalaria drugs or antimalaria nets, bandages, and non prescription drugs are often rare and many families lack the means to pay for medical treatment and delivery care as they are also malnourished. To reverse this trend, our team partner with local hospitals, local churches, and other community leaders to provide care for those who will otherwise suffer.

PRESSING ONWARD:

5 More Years of Hope and Transformation

As we look on the glorious things The Lord has done through Virtuous Women in Christ International during these past 5 years, we also can see that there are still more sick to visit, more mouths to feed, more heart to mend and more souls to be called to the Lord Jesus Christ.

Please remember us in your prayers as we continue the healing ministry of the Lord Jesus and to stretch out our hands to the most vulnerable. With your help children, women and families can be free from the chains of poverty, sickness and despair!

OUR MISSION

To raise a generation of virtuous women who, through love and compassion, will stand up with us to rescue the needy and bring the gospel of Jesus Christ to the maximum number of souls worldwide.

Virtuous Women in Christ International reaches those in deepest need around the world, helping them strive. Our passion for serving others in Christ motivates our mission and everything we do.

GOOD STEWARD

We are grateful to God for every partner we serve with and we consider every gift we receive as a precious resource from God. We direct therefore every donation to its intended project, provide accurate reports to our donors for measurable impact. We handle funds with utmost integrity and also hold our partners in the fields to the same high standards by asking them to document cost and the impact of their outreach. **Together we make change Happen. Thank you!**
